

There's No I in Team

Year 1 SUMMER 2 | Cycle A

Does one good deed lead to another?

Values [RESPECT](#) | [EMPATHY](#) | [TRUST](#) | [COURAGE](#)

Overview In this unit, children will be coached in basketball by a University professional player to develop their skills and experience what it means to be in a team; to win and manage their emotions when they lose or things do not go their way. They will make films to document the skills and knowledge they develop. There will be an explicit focus on the positive impact of sport on physical health. Children will also gain an understanding of how the world can unite in the name of sport through the 2018 Football World Cup – which will take place during this topic. Each child will be given a competing country to research and find out simple facts that they will use in their class literacy learning.

Engagement Children are inspired to meet players of the University basketball team. The players show the children what is possible with deliberate and sustained practice and answer the children's questions around being a professional sports and basketball player.
